THE NEW CABLE ROAD.

How and When it Will be Stretched-Some Interesting Facts, The work of laying the seven miles of steel cable will not, as erroneously stated in a morning paper, be com-menced to-night. Officials of the Washington and Georgetown Railroad Company informed a CRITIC reporter this afternoon that the work of passing the cable through the conduit not begin for a week or ten days at least. The reason for this delay is that

"Consequently," said one of the offi-cials, "we are not burrying Mr. Knox, the contractor, who is moving the great spool of cable. He will, we believe, have the spool at its destination tonight, although there is no particular

certain wheels and machinery to be em-

ployed in the operation have not ar-

At noon to-day the spool was at Fourand a half and N streets, only a few blocks from its final destination. In pass ing over the sewer at M street the great weight of the mass of cable is said to weight of the mass of capie is said to have caused a cave-in. An investigation will be made by the proper officials.

As previously stated in The Carrie the cable will be drawn through the underground conduit by a grip-car to which forty horses will be attached. This work will be hazardous and will

attract much attention. When the road is completed it will be the first one ever put down in the Capital City. The system that will be used is the most popular one known to modern invention. Ground was first broken for the tube the 9th day of last

At the time ground was broken much of the iron for rails, yokes and other castings was still in the ore. Considering unlooked for delays in getting this material, the Seventh street line has been constructed quicker than any other on record.

Mr. E. Saxton of Kansas-City is the contractor and builder of the road, as-sisted by a number of efficient lieutenants. Mr. Saxton has had large ex-perience in building this class of tramways, having constructed forty-six miles in the Gate City alone, which was, up to the time of building this road, considered the finest in the world. It excells in smoothness of track, regularity of slot rall and general economy of operation.

In general terms the modus operands of the line is about as follows: An ex-cavation is made in the street similar to an ordinary water trench four feet deep, in which is placed circular wooden forms. Around these is placed a cement concrete. After this has hardened the wooden forms are withdrawn, leaving a smooth circular tube throughout At intervals of thirty feet a grooved wheel is placed in the middle of the tube, over which the cable runs. These wheels are placed so that the grip in passing through the tube will clear them. The cable, as the grip passes, is raised several inches by the grip and falls back into the pulley again after the car passes.

The grip, which is attached to the

car, grasps the cable similar to a vice. operated by a lever instead of a screw. When the car is stopped the cable is re-leased, but maintains its position in the grip, or, in other words, the cable passes through the the cable passes through the grip on rollers. It follows that the starting of the car is instantaneous by a movement of a lever, which causes the grip to take hold of the cable again. A car can also be stopped within a few because there is a rail-brake in addition to the ordinary wheel-brake.

A commendable feature of the construction of the Seventh street cable is that traffic has never been interfered with along the old line. This is some-thing never before accomplished, either in Chicago, Kansas City or San Francisco, the home of cable roads.

SULLIVAN SECURED.

The New Atlantic Club Will be Under His Direction,

Every baseball crank in the city is looking forward to to-morrow as the day when he will be enabled to again witness his favorite pastime and to make a howling idiot of himself, if he so desires, over some rank decision of the umpire, or some opportune and brilliant play by some member of the local

There is an army of enthusiasts in this city, and if the weather is favorable every one of them wilt be at Capi tol Park to-morrow afternoon to witness the opening game of the season, between the reorganized Washingtons and the Rochesters. There are a number of reasons aside from their love of the game why they will be there. Every one who is interested in the game will desire to see the new men on the local team, for it will be the first oppor tunity to see how the young blood

All the men have been practicing daily under the able tutelage of Ted Sullivan. Yesterday, to avoid the crowd, which has seriously interfered with their practice, they went over to Georgetown College and indulged in a game. Sullivan says he is thoroughly satisfied with the new men, and is already figuring on his chances for the pennant in the Atlantic Association. President Hewett did not attend the

meeting of the Atlantic Association in New York to day, being represented by proxy. He is exceedingly sangulue re-garding the prospects for a prosperous season, and is confident that his new team will give a good account of itself.

Mr. Sullivan has all along insisted that he would not manage any team this season, his work for the Washing-tons being confined solely to the preliminary training. Several days ago, however, he receded from this position, and this summer Ted will be seen on the players' bench directing the men, for while he has not signed as yet to manage the team, he and Mr. Hewett have practically concluded arrange-ments by which Sullivan will continue in charge throughout the season. This will be good news to the patrons of the game, who have abundant faith in Sullivan as a manager.

O'Brien, the new second baseman, will arrive to day, and Gleason is expected to be here in time for the open ing game to morrow.

Twenty Years an Officer, Sergeant Perry of the detective force has just celebrated the twentieth anniversary as a member of the Washington Police Force. During this long term of service the sergeant has had no complaint filed against him, has never been reprimanded and is credited with never having lost a day from service, except on account of sickness.

Planting Lobsters, The messenger of the Fish Commis

sion with 800 lobsters, leaves New York to-day by steamer for Galveston, Texas, the intention being to plant them off the Galveston breakwater. Part of them are females carrying each several thousand fertilized eggs. Mr. Rusedule Returns.

Mr. Henry Rosedale, who disappeared some time ago, and whose family have been very auxious about him, returned to his home in this city yesterday. His absence is explained by the fact that he went to Baltimore on a visit, was taken sick and confined in the hospital.

THE LADY JOURNALISTS.

They Handsomely Entertain the Pan-Americans at Willard's Hotel, The parlors of Willard's Hotel were prettily decorated last evening with flowers and well filled with members of the Woman's National Press Association and their guests, the members of the Pan-American Conference. Diplomats, Government officials and literary lights were also there to help make successful the efforts of the lady cornalists to entertain the delegates. Each visitor received a handsome souvenir programme, the numbers in which were well rendered and highly

appreciated. The guests were presented by Mrs. M. D. Lincoln, president of the Associa-tion, to the members theroof. Mrs. Lincoln, whose nom do plume is "Bessie Beech," welcomed those present in a brief address, after which Mrs. H. N. Raiston recited the poem "The Queen's Jewels," in which every country represented in the Pan-American Conference was hapily mentioned. Delegate Caa-mano of Ecuador, who could not speak English at all when he first came to this country, four months ago, delivered a brief address in the language of this country which was interesting and well-

gates and acting President Henderson, of the conference, music being inter-spersed by the Pastime Club. Miss Marie Decca was warmly encored after the rendition of several selections, in which she appeared at her best. Refreshments were served at the conclu-

sion of the programme. The throng present included Mrs. A.
H. Mohl, Mrs. M. M. King, Mrs. M. D.
Lincoln, Mrs. H. B. Sperry, Mrs. M. R.
Moore, Mrs. Colley of the Woman's
Tribune, Clara Barton, Mrs. Imogene Morrell, Mrs. Representative Burrows, Miss Cynthia Cleveland, Mrs. O. G. Staples, Mrs. Stelle, the author; Mrs. Smith, the artist; Miss Ransom, Mrs. Huston, wife of the United States Trensurer; Mrs. Representative Owen, Representative and Mrs. McCreary and Miss McCreary, Mrs. Major Bash, Mr. and Mrs. Hutchinson, Mrs. Babbitt, Mrs. Elliott of Minneapolis, Mrs. Farrar, Mrs. Jennings, Mrs. Keim, Mrs. Cool-idge of Boston, Mrs. Leggett, Mrs. Mar-ble, Mr. W. E. Curtis, secretary of the conference: Mr. A. J. Halford, Profes-sor William B. Calcell De William B. sor William D. Cabell, Dr. Flint, Representative Funston, Miss Richards, Mrs. M. A. Dodge, Mr. Crosby, Smith, assistant secretary to the conference; Colonel Powers and Mrs. John

CONNECTING THE MAIN Capitol Bill Will Now Have a Good Water Supply.

The connection with the new thirtyinch main which is to supply Capitol Hill with an additional water supply was accomplished shortly after 8 o'clock this morning. Within a few weeks the side connections will have been made with the big main, and the residents of the Hill will have an adequately abundant supply of water.

All day yesterday a large force of men were engaged in making the exca-vations and getting ready to do the necessary tapping to connect the big main at the corner of New Jersey avenue and B street with the new pipe, which runs along B street. Another force was working at New Jersey avenue and D street to put in a blow-off to connect the main with the Tiber Creek

sewer for use in case of an accident. Promptly at 9 o'clock last night Captain Lusk ordered the water to be turned off in anticipation that it would not require more than twelve hours to com-plete the job. It was nearly midnight before the section of pipe at New Jersey avenue and D street was ready to be re-moved. When it was finally lifted out the water rushed out, and for half an hour the workmen and a few belated passers-by were treated to the nove sight of a spouting geyser. It spouted up nearly twenty feet and lasted for about half an hour, and in the fitful glare of the lanterns and the distant electric lights presented a weird ap-

When the matter ceased the blow-off pipe was dropped into position, and then the laborers rested for a while, and took supper, before commencing the more arduous task of completing the connection at B street.

After supper they went to the other big excavation and completed the job. It required all night to do it, and Col-Ellfott, who superintended the work, remained to see that it was properly done. When the work was completed this morning, Captain Lusk was notified and the water was turned

While the new main will carry an increased supply of water to the Hill, it will haplly be appreciable until after the side connections have been made, which will be done within a few weeks

VICIOUS FEMALES.

One of Them Tries to Hang Herself at the First Precinct.

A batch of about the "hardest" female characters in Washington were in the dock at the Police Court this morning. They were Ellen Farrell, Kato Barclay, Jennie Reed, Sadie Gibson, Kate Colbert, Lillie Ross, Kate Rainey, Mary Francis and Ida Mitchell, all colored. The charge against them was vagrancy, and the judge sent them all the workhouse for sixty days, except Ida Mitchell, whose term he made ninety

Ida was under the influence of liquor when she was arraigned. While locked up at the First Precinct she made two unsuccessful efforts to commit suicid by hanging. She tore strips from her clothing, twisted them up in a rope and attempted to hang herself to the cell

Mr. Sickles Gets the Best of It,

Last night about 10 o'clock two colred men broke into a show case standing in front of Nathan Sickles' cigar store, at No. 1011 Pennsylvania avenue. They had gathered in two boxes of cigars and some packages of tobacco when they were frightened away, and in their fright dropped their booty and In addition an overcoat belonging to one of the thieves. Mr. Sickles recovered his property, and also has a good overcoat that the owner can have by call-

A Red Men's Pow-Wow.

The Red Men of Onandago Tribe held a pow-wow last evening at their hall on Eighth street, between Market Space and D street, and enjoyed them space and D street, and enjoyed chair-selves around the council fire until nearly midnight. Numerous pais-faces were present to participate in the enter-tainment, and it was voted that the Reds, in addition to being expert scalptakers; know how to enjoy a good time when the pipe of peace is passing

FIRST LIMES of the season are found at

SOUTH AMERICAN RECIPROCITY.

There Is Said to Bo a Scheme of a Startling Nature on Foot, NEW YORK, March 28. The Evening Post gives prominence to the following

special from Washington; "The possibility of getting great benefit from the Pan-American Con-gress has come to a focus. An intima-tion was received a few days ago by Mr. Charles Flint, the representative of this country from New York, from the representatives of the South American countries, that their countries might be willing to give complete reciprocity in everything, provided this country would

Mr. Flint was in consultation with Secretary Blaine upon the matter, and upon the expression of his (Flint's) desire that Mr. Jefferson Coolidge of Massachusetts might be joined with him in the negotiations, those two representatives of the United States in the Congress were made a sub-committee to conduct the negotiations and put the natter in shape for further representa tion the Congress. The whole situa-tion was talked over with Mr. Blaine. and the outcome of it was that the rep resentatives of this country were authorized, in the name of the Secretary of State, and with Ms approval of the scheme, to make a proposition of absolute reciprocity to the representatives of the South American countries.

"The reciprocity proposed is githout exception, and the adoption of the plan would bring about absolute free trade in every article of commerce between the United States and the South American countries.

"There is also involved in the plan as an essential part of it, the adoption of articles of agreement for arbitration in cases of international disputes. This agreement would apply to the South American countries in their relations lations with the United States.

'The scheme in its two parts is re garded as of immense consequence to all the countries concerned. It was on Saturday, March 22, that the proposi-tion was submitted by Messrs. Flint and Coolidge to the South American

representatives."
The Post says: "The source from which this news reaches us we consider sufficiently good te warrent publication, but cenfess that we cannot help doubting the willingness of the Pan-Americans to adopt a tariff which would prevent the United States being flooded with European goods via South America and the willingness of Mr. Blaine to propose reciprocity which did not provide for such a tariff."

Secretary Blaine was asked about the correctness of the report. He read the dispatch carefully and with evident interest, but positively declined to make any comments, and would not permit himself either to admit or to deny the

truth of the statements is contains.
It was learned, however, from gentleman who is supposed to be well posted as to what is going on in the conference that Mr. Flint and Mr. Cool-idge, two of the delegates from the United States, have been and are still in consulation with some of the foreign delegates with reference to the subject above stated; but whether they are acting upon their own responsibility or under the instruction of the Secretary of State could not be ascertained.

The proposition is said to involve the surrender by the United States of the duties upon sugar and carpet wools imported from the countries of Central and South America, in exchange for similar concessions from the governments of those countries as to merchandise imported from the United States, including all farm products, refined lumber, agricultural imple ments and machinery and some other It is asserted that such an exchange of concession would increase the exports from the United States to Latin America from fifty to sixty million dollars a year.

Serious Charge Against a Clergyman An Illegal Marriage. Rev. Robert S. Laws, pastor of the Virginia Avenue Colored Baptist Church, was arrested by Detective Raff this afternoon charged with having violated the marriage laws of the Dis-trict of Columbia. On the 4th of April, 1888, Rev. Mr. Laws married Thomas Quivas and Frances Murgin without having first obtained a license, as re-

Shortly afterward Quivas learned that no license had been obtained, and, as he and his wife had not been living happily together, he concluded to leave her and take advantage of the illegality of the ceremony. The wife protested against this treatment, but the husband was obdurate, and threw in her face the fact that they were never legally

married. Mrs. Quivas then concluded that she would hold the minister responsible, and yesterday afternoon she brought the case to the attention of Inspector Swindles. She claims that Mr. Laws was given the necessary money with which to procure the license, but re-tained it for his own use.

AN INTERESTING FIGHT,

The Third Deposit Made in the Mc-Millan-Northridge Affair,

The third deposit of the stake money for the approaching fight between Mc-Millan and Northridge was posted last night. The tickets for the mill are out and are having quite a large sale, as the fight will be the most interesting one that has ever taken place in this

The fighting grounds have not yet been decided upon, but, in view of the recent decision of the Attorney-Gen-eral of Virginia that there is no law to punish prize fighting in that State, it will probably occur somewhere within

Malicious Mischief.

Some one, apparently on mischief bent, broke into Ramsey & Bisbec's printing office last night through the windows, and, though nothing but the old clock was stolen, considerable damage was done. Type was "pied" and gas fixtures were broken off, allowing the gas to escape in a way that trotted the metre indicator around like buzz saw. About \$25 worth of mis-

Marriage Licenses. Marriage licenses have been issued o Smith Harris and Margaret Ford, Washington, D. C.; William H. Cruser and Margaret Blunt, Washington; Juan B. Cantron and Theresa Chand, Wash ington; Beujamin Contee and Ella Singer, Washington; John Alexander and Louisa Hall, Sparrow's Point, Md.; Robert Hernigen and Mazgle Gibson, Washington.

A Good Investment

is that which yields large returns from small outlay. Reader, the way is clear!
No speculation, no chance, big returns it you are like most of mankind you have somewhere a weekness don't feel at all times just as you'd like to headache to day, backache to morrow, down sick next week—all because your blood is out of order. A small outlay and what large returns? You invest in Dr. Pierce's Golden Medical Discovery and soon pure, fresh blood courses through your veins and you vie another being? small outlay. Reader, the way is clear!

SPANKED AND EXPLODED,

Eddle Wore a Bomb, But His School Ma'am Didn't Know It. NEW YORK, March 28,-Five-year old Eddle Mullane hasn't been to school since St. Patrick's Day. Neither has he occupied his accustomed seat at the Mullane family breakfast table. Miss Knex, who was Eddie's teacher, is nursing a sore hand, and Miss Jasper who is principal of school No. 58, i outspoken in her denunciation of deal ers who sell explosives to school children. Eddle's father gave him a nickel en St. Patrick's Day with which to buy candy, but Eddle bought what his schoolmates call a "bomb," showed his treasure to his comrades

snowed his treasure to his comrades during recess, and promised to celebrate St. Patrick's Day right royally at noon. Eefore noon, however, there was oc-casion for Miss Knox to call Eddie up to receive a reprimand, and almost immediately there was heard a loud explo sion, followed by a cry from Eddle and a shrick from his teacher. The other teachers rushed into the room, and when the smoke of the battle had cleared away the major portion of Eddie's knickerbockers were missing, and his waist was found to be on fire. Miss Knox had a blackened and burned hand, and the sleeve of her dress was badly singed. Eddie had placed the bomb in the place where most school boys carry their tops, mar-

ment Miss Knox began her reprimand. THE DAIRY INDUSTRY,

bles and knives, in the "pistol pocket," and this bomb had exploded the mo

Hon, F. K. Moreland of New York Here in Its Interest. Professor Wahlim of Sweden, who is tolay perhaps the best known European authority on dairy matters, in company with Hon, F. K. Moreland of Ogdensburgh, N. Y., appeared yesterday before the Department of Agriculture in the interest of the dairy industry. Mr. Moreland has long been interested in agriculture and is desir-ous of having information acquired during

ous of having information acquired during a trip to Europe last year made available as promptly as possible for the farmers of this country.

The process as explained by the gentleman to Secretary Rusk, Assistant Secretary Willett and Professor Wiley of the Department is one calculated to be of great benefit to dairymen, in that it takes an almost worthless required the country of the process of the country most worthless product, viz., skim milk and whey and converts it into a valuable commercial commodity.

The skim milk is curded in the manuer

usual in manufacturing cheese, only that a greater quantity of rennet and higher tem-perature is used, so as to make the precipi-tation as complete as possible. The curds are then placed in a common cheese press, where it, however, undergoes a harder pressure than is required for ordinary cheese, and afterward put through a simple process of drying and gribding, leaving the product of dry curds or casenine as free from water as possible. This casine, being very nouri-hing, makes a very valuable ingredient in feeding cakes for cattle, horses or dogs in poultry food, etc., also in bread, biscuits and other kinds of human food.

The whey remaining after the curding mentioned above is mixed with an equal quantity of skim milk and evaporated into are then placed in a common cheese press, quantity of skim milk and evaporated into solid nearly water free cakes to be after-wards cut, more or less roasted and ground o suit any purpose that may be desired. These solids, containing principally azotic or organic nutritious substances and carbo-hydrates, are naturally very healthy and

highly nourishing.

If this new process is what it promises to be it will certainly result in great advantage to our dairymen. The great trouble here-tofore was that there was no profitable use to be made of skim milk. As food for swine it is not worth more than, say one cent per gallon. If, However, milk solids shall become an article of commerce it will certainly be worth much more.

certainly be worth much more.

According to the methods of manufacture in Sweden three gallons of skim milk will produce one pound of dry curd and three pounds of the evaporated product. The manufacturers of feeding cakes pay four cents a pound for the dry curd and the manufacturers of certain articles of human food pay five cents a pound for the evaporated product to use as a mixture. This equals six and one-third cents per gailon for the skim milk.

Considering the present unprofitable use

Considering the present unprofitable use in this country of the refuse of the dairy, and that this new process promises to make farmer, the wisdom of the gentleman of presenting this matter will be more readily appreciated. Samples of this product in all its forms were left with the Department for analysis and more thorough investiga-

With His Little Hatchet.

WAYNESBURG, PA., March 28 .- Yes terday afternoon two sons of Spencer Cowell, aged 3 and 5 years, were playing in the yard at their home. During their piay they became involved in some childish differences, and the older boy, having a hatchet in his hand, struck his 3-year-old brother on the head, cleaving the head almost in twain, killing him instantly.

As a CURE for piles, there is this to be said about Old Saul's Pile Ointment: It is said about 2 at 1 is certain, and it is absolutely painless. Price of this peerless remedy is only 25 cents.
